

WEB AND EMAIL HOSTING

WEB SITE HOSTING

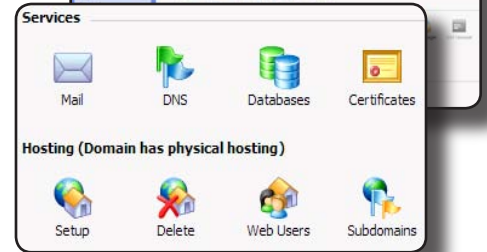

Web hosting requires a lot of trust. Trust with your files. Trust with your message. Trust with your information. You already trust CU*Answers with your priceless member data; trust us with your web data as well. Our hosting is rock solid, with state-of-the-art servers and around the clock monitoring.

OUR HOSTING PLATFORM

NEW

In 2007, WESCO Net Web Services launched a new hosting platform. This new hosting platform provides many new features including a management control panel and updated web site statistics.

- SAS 70 Certified Data Center
- Redundant Power including Diesel Generator
- 3 stage disk to disk to tape backups, plus on demand backups from control panel
- Multiple Internet connections

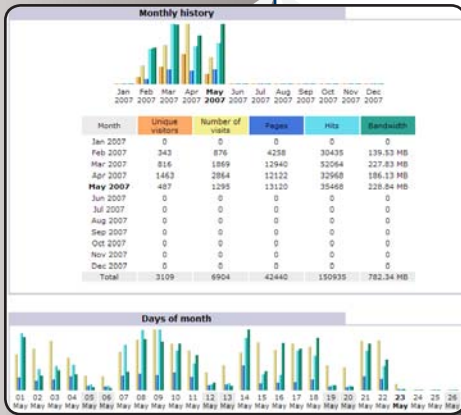

CONTROL PANEL

The new control panel allows you to login and manage your own web site and email settings. That means you can set up email addresses and change passwords on your schedule. You also have control over the spam protection level.

WEB SITE STATISTICS

Who's visiting your site? When are they visiting? And what pages they have been viewing? All WESCO Net Web Services hosting plans come with a comprehensive statistics package.

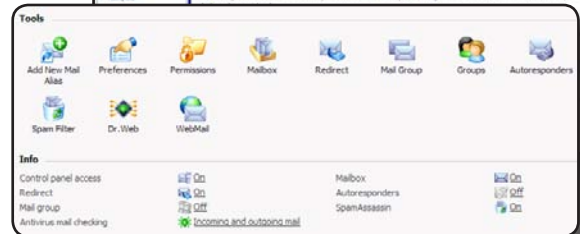

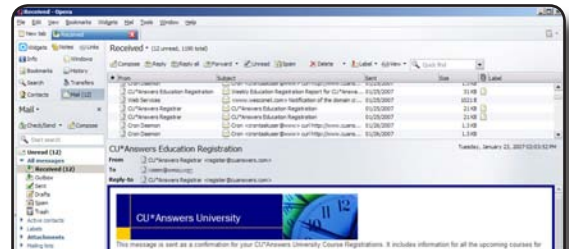

- Track traffic based on month, day and hour
- Monitor the success of your web promotions
- See what pages are attracting your visitor's attention
- Discover the browsers and operating systems your members use
- Determine which search terms are bringing visitors to your site

EMAIL HOSTING SERVICES

Your web hosting also includes email! Now you can login to the control panel and set up your email addresses.

- POP3 email inboxes with 30 MB of storage each
- Secure WebMail Access
- Mail groups to forward one address to multiple recipients.
- Unlimited mail forwards
- Unlimited autoresponders/vacation messages
- Spam protection with customizable levels
- White and Black listings
- AntiVirus scanning

MANAGE YOUR OWN SITE WITH FTP

Familiar with HTML and CSS? You now have direct access to your sites source code via FTP. Use any of the popular HTML development tools like Adobe DreamWeaver or Microsoft Web Expressions and create your web site.

OR, LET US MANAGE YOUR SITE

WESCO Net Web Services has a team of seasoned Web Professionals standing by to manage your site for you. Our team handles the HTML, CSS and other technical details as well as testing for you so all you have to worry about is the content. We even have access to a large photograph library for use on your site.

CHOOSE YOUR HOSTING PLAN

We offer different hosting plans to meet your needs. Depending on your bandwidth, storage and email needs, pick the plan that is right for you. Remember you can upgrade at any time.

All plans include:

- Web site hosting
- Email services
- DNS service
- Automated Backups
- Web Traffic Statistics
